IV. Problems

25X1A9a

A.

The loss of [REDACTED] to the Satellite section without the replacement expected in July has handicapped work on NIS 14 Section 61, Poland and may force a delay in the original deadline. Any unscheduled projects levied on the Satellite section during the next three months will adversely affect work on NIS 14 Section 61.

25X1A9a

B.

The forthcoming retirement of [REDACTED] poses a difficult problem of adequate replacement.

25X1A9a

C.

The loss of [REDACTED] will probably necessitate a curtailment of the Far East sections' research program for FY '58.
